

# Doctoral Programme Profile

---

## Music

Awarding Institution	University of Chichester
Teaching Institution	University of Chichester
Final award	PhD
Name of academic discipline	Music
FHEQ level of final award	Level 8
Research Degree Coordinator for area	Professor Laura Ritchie
Date Programme Profile was last revised	03/03/2019

All PGR Programme Profiles should be read alongside the [University of Chichester's Regulations for the degrees of Master of Philosophy and Doctor of Philosophy and the Code of Practice for Research Candidature and Supervision](#).

## Programme Outline

---

### Brief outline of the programme

The research degree programme in the area of Music aims to provide students with an outstanding learning experience in a supportive community of learning. The department of Music is known nationally and internationally for excellence in both practice-based and theoretical research. Research students can be supervised within our departments, and can benefit from wider support from academics with related specialisms both within and outside the university (external supervisors). Students can take practice-based or theoretical routes as appropriate to their research. Information on staff research interests and achievements can be found on the Departmental web pages.

Our **Music** programme is one of the largest and liveliest in the UK, and focuses on music as an applied art; one that is engaged with the musical world in all its diversity and excitement. This means that our courses are focused on practical work, from performance, composition and improvisation to musical theatre performance, training in instrumental or vocal teaching, music business, introductions to music therapy and community music, as well as traditional music analysis, cultural history, and critical theory. Our community of MPhil and PhD students, supervised by our highly dedicated academic team of practicing artists and researchers, are mostly concerned with research related to practice-based performance, although research across disciplines, and with a mix of practical, creative and theoretical aspects, is also encouraged. All of our academics participate in the University's calendar of research events, regularly presenting papers and practical research findings at seminars and in workshops in-house and internationally. Each year, at least one member of the academic staff works towards staging a major research performance, or demonstrates practice-driven work-in-progress.

### Aims of the Programme

The main aims of the programme are:

- a) The creation and interpretation of new knowledge through original research or other advanced scholarship, or of a quality to satisfy peer review, extend the forefront of the discipline and merit publication;
- b) A systematic acquisition and understanding of a substantial body of knowledge which is at the forefront of the academic discipline;
- c) The general ability to conceptualise, design and implement a project for the generation of new knowledge, applications or understanding at the forefront of the discipline, and to adjust the project design in the light of unforeseen problems;
- d) A detailed understanding of applicable techniques for research and advanced academic enquiry appropriate to the discipline.

## Programme Outcomes

---

## Knowledge and Understanding

---

Having successfully completed this programme you will:

- Have demonstrated a systematic understanding of a field of study and mastery of the skills and methods of research associated with that field;
- Have demonstrated the ability to conceive, design, implement and adapt a substantial process of research with scholarly integrity;
- Have made a contribution through original research that extends the frontier of knowledge by developing a substantial body of work, some of which merits national or international refereed publication;
- Are capable of critical analysis, evaluation and synthesis of new and complex ideas;
- Can communicate with your peers, the larger scholarly community and with society in general about your areas of expertise;
- Can be expected to be able to promote, within academic and professional contexts, technological, social or cultural advancement in a knowledge-based society.

### Learning and Teaching Methods

The PhD programme is delivered through a supervised research project. Each student will have a supervisory team of at least two appropriately qualified academic staff, one of whom will be the Director of Studies. A description of the responsibilities of the supervisory team can be found in the [Code of Practice](#).

### Assessment methods

The award of MPhil or PhD is assessed through submission of a written thesis or equivalent for practice-based disciplines and an oral examination with a panel of examiners (*viva voce*). The viva is compulsory for both PhD and MPhil.

### Subject Specific Intellectual and Research Skills

---

The majority of subject specific intellectual and research skills are gained through the process of doing research within the context of supervisory meetings and support. On occasion it may be helpful for a student to undertake specific research skills training such as that taught as part of Masters programmes or as part of the postgraduate research training programmes coordinated by the Research Office and by the relevant Departments.

### Professional Development and Transferable Skills

---

Those completing their doctoral programme will have the qualities and transferable skills necessary for employment requiring the exercise of personal responsibility and largely autonomous initiative in complex and unpredictable situations, in professional or equivalent environments.

Research students have access to the University's Staff Development Programme as well as a range of other formal and informal training activities coordinated at the department, area or University level.

# Programme Structure

---

## Admissions

MPhil/PhD students can register either at the start of October or the start of February. Admission requirements are described in the [Code of Practice](#) (in particular see clauses 11 to 25).

## Candidature

Maximum candidature is 48 months in Full Time registration, 84 months in Part Time Registration.

## Progression Requirements

The programme follows the University's [Higher Degree Regulations](#) as set out on the University website.

During the programme there are a number of academic milestones that the student will need to complete.

These include:

- Confirmation of research project (2000 word proposal and completed Form 1) after three months (full time) and six months (part-time)
- Satisfactory Annual Progress reports
- Upgrade from MPhil to PhD programmes (only for PhD programmes).

## Support for student learning

---

There are facilities and services to support your learning. Some of these are accessible to students across the University and some of these will be geared towards students in your particular Faculty or discipline.

The University provides:

- Library resources, including e-books, on-line journals and databases, together with assistance from Library staff to enable you to make the best use of these resources
- High-speed access to online electronic learning resources from dedicated PC Workstations onsite and from your own devices; laptops, smartphones and tablet PCs via the Eduroam wireless network. A wide range of application software is available from the PCs in each LRC.
- Accounts that connect you to a number of learning technologies including the Moodle virtual learning environment (which facilitates online learning and access to specific learning resources)
- Standard ICT tools such as Email, secure filestore and calendars.
- Access to key information through the University's intranet.
- IT support through a comprehensive website, telephone and online support and a dedicated helpdesk at the SIZ at each of the LRCs.
- Enabling Services offering assessment, guidance and facilities (including specialist IT support) if you have a disability, dyslexia, mental health issue or specific learning difficulties
- Student Support Services to assist you with a range of general enquiries including financial matters, accommodation, exams, graduation, student visas, ID cards ([studentadviser@chi.ac.uk](mailto:studentadviser@chi.ac.uk))
- Careers support, advising on job search, applications, interviews, paid work, volunteering and internship opportunities and getting the most out of your extra-curricular activities alongside your degree programme when writing your CV
- A range of personal support services : mentoring, counselling, residence support service, chaplaincy, health service
- Assistance in the development of English language and study skills for non-native speakers.
- A Research Office which coordinates a programme of professional development and skills training ([pgrsupport@chi.ac.uk](mailto:pgrsupport@chi.ac.uk))
- An appropriate research environment, as set out in the [Code of Practice](#)

The Students' Union provides:

- An academic student representation system, consisting of elected Student Voices in every department, Academic Representatives for both campus', and the SU President and Vice President. UCSU provides training and support for those who represent students' views to the University.
- Extracurricular activities and volunteering opportunities

- Free and confidential advice including support if you need to make an academic appeal or apply for mitigation
- Opportunity to thank and reward staff through the SU Teaching Awards

Associated with your programme you will be able to access:

### **Music**

We have an extensive programme of professional concerts and masterclasses on campus, all of which are free to students. Tuition takes place in our modern music facilities, which include well-equipped practice rooms with new grand pianos supplied by Steinway & Sons, an acoustically superb performance venue with two Steinway model D concert grand pianos, a concert organ, baroque and modern pitch harpsichords and a theatre with a 130 square meter stage and an orchestra pit.

Rehearsal space and performance facilities are available on both Bishop Otter and Bognor campuses and throughout the programme of studies, students are encouraged to make links to connect, perform, and present locally in our community, nationally, and internationally.

Students also have access to extensive online resources, inter-library loans, computers and office space.

### **Fees information**

Current information about the fees for postgraduate research degree programmes are available on the University's website <http://www.chi.ac.uk/study-us/fees-finance/tuition-fees>
